

Website & Mobile App Development Agreement

Date: ____ / ____ / 2026
Ref. No: BA/ESAM/WA01/05/26

Project: Ethio Sadat Arabian Mejlis Commercial Web Presence, Mobile Application & Islamic Center Platform

Developer: BilyonArc Technology

Client: Ethio Sadat Arabian Mejlis

1. INTRODUCTION

- ✓ This Agreement is made between **BilyonArc Technology (the "Developer")** and **Ethio Sadat Arabian Mejlis (the "Client")** for the design, development, and deployment of a full-scale commercial website and cross-platform mobile application. Both parties agree to cooperate professionally and fulfill all required responsibilities to ensure the timely completion of the project.

2. Scope of Work (Core Features)

- ✓ The Developer will deliver a professional, production-grade website and mobile application featuring the following functionalities:
 - a) **Role-Based Authentication & User Control**
 - ✓ Secure user registration, login, and profile management across both web and mobile channels.
 - ✓ Defined user roles: Customer, Content Manager, and Administrator.
 - b) **Dynamic Craftsmanship & Product Showcase**
 - ✓ An elegant, high-end digital showroom highlighting premium Arabian Mejlis furniture layouts, craftsmanship details, and professional descriptions.
 - ✓ Advanced product filtering by materials, dimensions, and styling categories.
 - c) **Core Communications Layer**
 - ✓ A simple, secure messaging or contact system enabling seamless text-based inquiries between customers and administrators.
 - d) **Islamic Center Integration**
 - ✓ **Azan:** Location-based automated prayer time calculations and notification alerts.
 - ✓ **Qibla:** An interactive, sensor-driven Qibla compass for accurate directional alignment.
 - ✓ **Quran Audio:** A built-in media streaming interface for high-quality recitation playback.
 - ✓ **Quran Download:** An offline storage mechanism allowing users to download Quranic audio tracks directly to their devices.

3. Development Timeline

- The full website and mobile application development phase will be completed within:
 - ✓ 7 – 10 working days, officially counted from the date of the initial down payment confirmation.

4. Responsibilities

- **Developer Responsibilities**
 - a) Build, compile, and configure the website and mobile app matching professional, production-grade architectural standards.
 - b) Ensure all user interface layouts strictly inherit styling project-wide through optimized, external style configurations (style.css), avoiding unmaintainable inline block configurations.
 - c) Provide regular development updates to the client.
 - d) Perform comprehensive system testing, cross-device testing, and staging environment checks prior to delivery.
 - e) Deploy the production-ready website and submit the mobile application files for store deployment once credentials are provided.
- **Client Responsibilities**
 - a) Provide all brand identity assets, detailed product descriptions, dimensions, and craftsmanship inputs promptly.
 - b) Execute all agreed financial payments on schedule.

5. Ownership & Deliverables

- Upon final project sign-off and receipt of the remaining balance:
 - a) The Client receives full operational ownership of the product instance.
 - b) The Developer delivers the final source code repository, clean database schemas, and the corresponding deployment packages.
 - c) Master Access & Credentials: The Developer will deliver all administrator credentials, full passwords, and complete management access to the Client. The Client holds total control over the system.

6. Maintenance & Future Enhancements

- This Agreement covers strictly the initial full website and mobile application scope. Any advanced modules—including automated AI assistance, interactive 3D twins, or extensive post-launch maintenance agreements—will require an independent, dedicated contract and separate pricing.

7. Confidentiality

- Both parties agree to maintain strict confidentiality regarding all backend data structures, product margins, structural assets, and proprietary project details. No information shall be shared with any third party without explicit written consent.

8. Agreement Acceptance

- Upon completion of the production deployment checklist, application store submission, and settlement of the remaining balance, the project will be officially categorized as fully delivered and accepted.

9. Payment Terms

- **Total Project Cost:** _____ ETB
- **Initial Payment (40%):** _____ ETB – Required to initiate the development environment and engineering pipeline.
- **Remaining Payment (60%):** _____ ETB – Due strictly upon project completion, prior to production app store publishing or full source code handover.
- **Accepted Payment Methods:**
 - ✓ ETB Bank Transfer
 - ✓ Cryptocurrency (USDT/USDC) via Binance

10. Signatures & Approvals

- By signing this document, both parties (the developer and the client) confirm their public acceptance of the terms, work specifications, and payment conditions mentioned in this contract.
